

BDRUM SERIES

200 L PUR Melters

Valco Melton's BDrum Series Melters are specially designed for the application of PUR adhesive delivered in 200 Liter drums. Each Bdrum Unit include a flat or finned platen to achieve different melt rates and optional add-on safety features.

- Special technology for PUR applications
- Safer working environment with new platen protection system and exhaust fumes discharger grille
- Reduced downtime related with drum changes
- A wide range of options permit customization to specific user needs

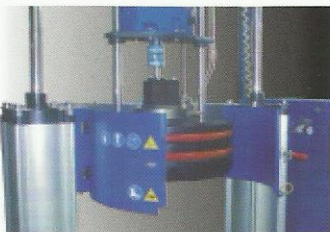

New drum fastening system for faster drum changes

Optional cleaning tank

Fume exhaust hood for easy connect with ventilation tube

Platen protection system to protect operator from burns and trappings

BDrum Series includes air injection module.

Optional filter manifold ensures cleaner applications.

Built-in pressure relief valve to adjust adhesive output pressure. Pneumatic pressure relief valve in option.

Finned or flat platens better adapt to various adhesive types. All platens are Teflon® coated and include cast-in heaters.

Technical Specifications

Characteristics	B Drum Series	
	200L flat platen	200L finned platen
System	200L flat platen	200L finned platen
Drum Capacity (L)	200	200
Max. Melting Capacity (Kg/h)	60	130
Max. Pumping Rate (Kg/h)	180	180
Max. Number of Pumps	1	1
Working Temperature	30 - 240 °C	
Max. Working Viscosity (cps)	100000 cps	
Max. Working Pressure (bar)	100 bar	
Electrical Consumption (Kw)	24, 0 Kw	

	6 exits	
	1 - 2 exits	3, 4, 5, 6 exits
Max. Channel Power (W)	1800 w	1400 w
Per exit (hose and gun)	1800 w	1400 w
Per channel (hose and gun)	1800 w	1400 w
