## ABOUT

Feltouch is a manufacturing and product development company specializing in PET felt with advanced fibre & non-woven textile technology. Our main target is to supply a diverse range of consumer, commercial and innovative industrial acoustic felt products to markets all over the world. On behalf of the experiences behind the Start-up harmony, continuous diversification, perfectual growth and sustainability are basic principles of Feltouch.

### Sustainability

Feltouch gives a second chance to PET packing wastes and all products are made by approximately %50 Recycled PET and Polyester Fibres with no chemical binders and certified low VOC. All production process and supply chain target to use safe, non-toxic, antibacterial and healthy raw materials by using renewable energy resources.

### Acoustics

Feltouch offers high performance acoustic absorbers using unique & smart designs for all interior spaces to improve speech intelligibility, well being, concentration and acoustic performance. We have a limitless will to work alongside architects, interior and product designers to offer the best possible acoustic and decorative outcome for interiors. We are available to provide any service about our products by acoustical engineering. All Feltouch products are acoustically sound absorbing and rated according to ISO 11654-EN 354 at international accredited laboratories.

### Design

Feltouch is the one of the leading company in acoustic PET felt production and design. R&D and design have been taking most part of our working times and we hope this will continue much more than as it is. It is our responsibility to offer market based creative solutions including tailor made products to meet specialized customers needs.

### Yigit OZER

YIGIT OZER is Istanbul, Turkey based product designer that his works are acclaimed by many prestigious international awards such as Red Dot Design 'Best of the Best', Good Design, IF product design, Design Turkey, Elle Decoration.

His works are characterized by a high attention to detail and a vast scope of influences that are mixed and matched to give products a remarkable level of expression.

Istanbul's unique amalgam of the industrial and the artisanal culture has been striving to dissolve barriers between genres and foster multi disciplinary creativity in his works for many manufacturers and brands.

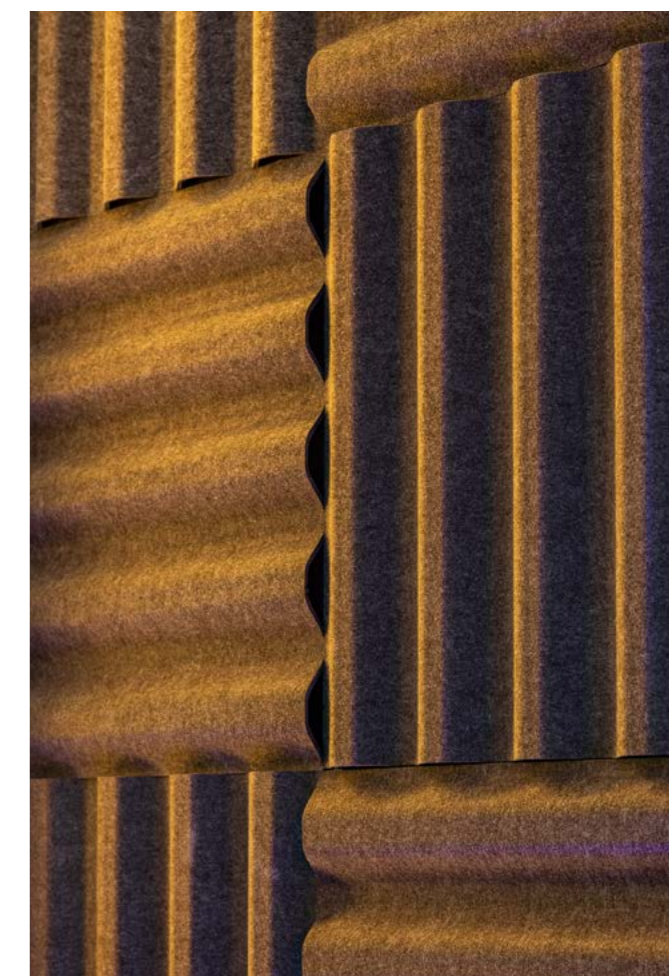

### Vertigo

Vertigo acoustic panel series approaches PET felt design in a whole new perspective. Visual varieties and individually customizable arrangements of Vertigo model series creates stunning vertical and horizontal optical patterns.

Vertigo series adaptable panel surfaces enables extensive creative freedom to differentiate and cover many surfaces from ceiling to walls and corners through its unique 3D 5 piece trapeze, cloud, lighting, pattern, mono and corner forms.

This distinguished design has been implemented by Feltouch Felt which developed to meet environmental norms in line with interior building standards. High acoustic performance rated felt provides sustainable and eco-friendly life cycle with its recycled and recyclable features.

Sense Collection presents the largest panels created by using pressed PET felt technology. This exclusive products are made possible by Feltouch's mastership on felt forming.

Vertigo wall panels is an expression of art and design to serve as a source of inspiration that advances creativity and aesthetics

The design represents and reinterprets the elements and formations found in sand dunes. Unique and constantly evolving formations and patterns of dunes that shaped into a mound or ridge by the wind under the influence of gravity

The core and focus of the Vertigo collection is on its personalization, function and to provide an interesting play of light and shadow.

**Product Details**

Casambi is based on Bluetooth Low Energy (BLE), the state-of-the-art wireless technology and the only low power wireless technology in all modern devices. With this, Casambi creates a self-organizing wireless mesh network, where each module has the intelligence of the system replicated inside it, creating a system with no single points of failure.

The Casambi app is an all-in-one lighting control system. Allowing complete access to lighting manipulation through Bluetooth on your phone, the Casambi app gives you complete control over your lighting. Available to download from the Apple App store and Google Play, it is the simplest solution to controlling your lighting.

Casambi has four different levels for sharing and access control. You can decide if your network is open to everyone or if other users need a password to access your network. If you have several users and devices using the same network, all the changes made with one device will be automatically updated to the other devices with Casambi cloud service.
