ABOUT US

Barelit, established in 2007, is a trading and manufacturing company specializing in the development and production of **high-quality equipment and materials for lamination**. Our solutions are widely used in the production of window and door profiles, windowsills, panels, and other products made from PVC, aluminum and MDF.

Barelit's product portfolio can be classified under the following categories:

- Lamination machines for PVC, MDF, and Aluminum profiles;
- Decorative films for profile and panel wrapping;
- Protective tapes;
- Adhesives for lamination, packaging and hygiene industries;
- Pressure rollers and spare parts for equipment;
- Metal racks;
- Decorative acoustic panels;
- Scratch-resistant premium-class windowsills.

In addition to manufacturing, Barelit provides **technical support** and offers **favorable conditions for long-term partnerships**.

In all areas of our business, we are guided by the principles of **honesty, responsibility, and respect** toward our clients and partners. We are committed to building long-term cooperation by offering high-quality products, a personalized approach and comprehensive technical support at every stage of collaboration.

Our mission is to build stable and trustworthy relationships with our clients, based on innovation, professionalism, and outstanding service.
